

ONE inline PLACE EVERYTHING MAXIMIZED

**UNIVERSAL STREAMING HUB
AND MOBILE APP PLATFORM**

Everyone's Digital Experience With Your Property Maximized!

HOW IT WORKS

Management enters all new communications in Command Center. Everything maximized on Smart Hub Web Address and Mobile App.

All audiences enjoy a truly interactive experience with property from One Inline Place!

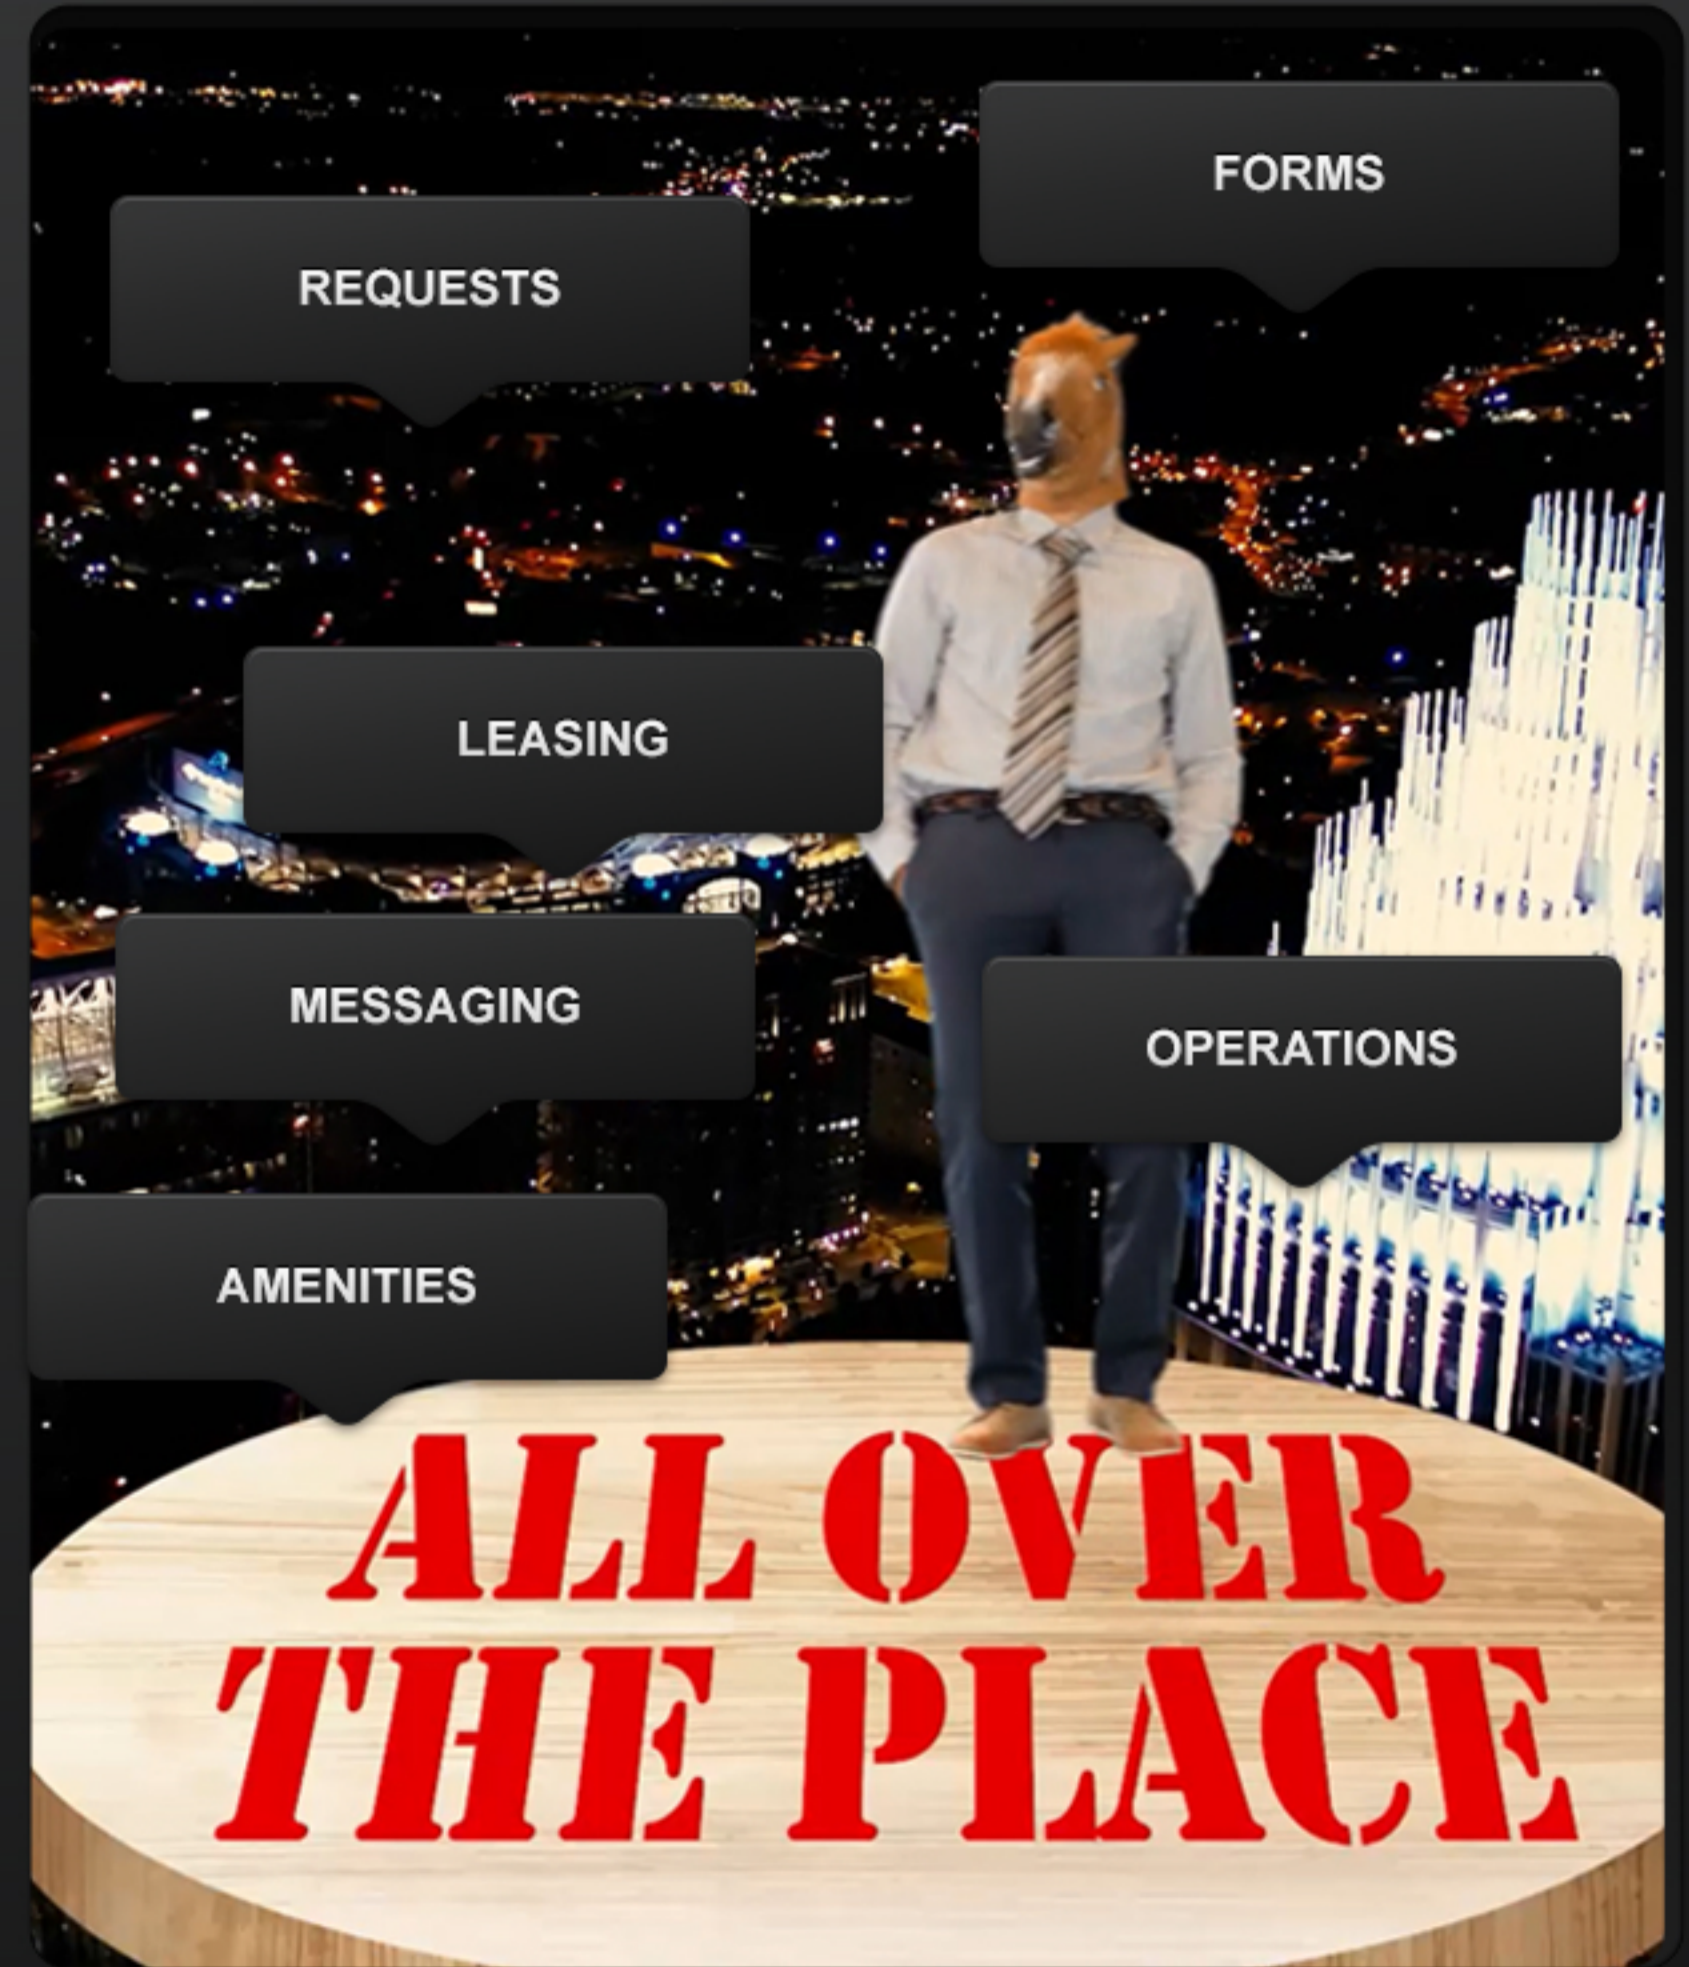

It's 2024! Are your communications all over the place?

No intelligent platform to streamline your connection to your audience?

Fully dependent on e-mail for all your communications?

AVOID THE RUSH OF ALL OVER THE PLACE!

ALL OVER THE PLACE

Current property communications are slow, repetitive, and time-consuming.

E-MAIL

No ability to produce sends that are queued for maximized readability. Long scrolls are rarely ever read.

WEB ADDRESS

No ability to update in real-time. Content scattered across multiple urls. Login requirement discourages usage.

MOBILE APP

No ability to provide instant answers in the one place everyone is always dialed into.

MOBILE ALERTS

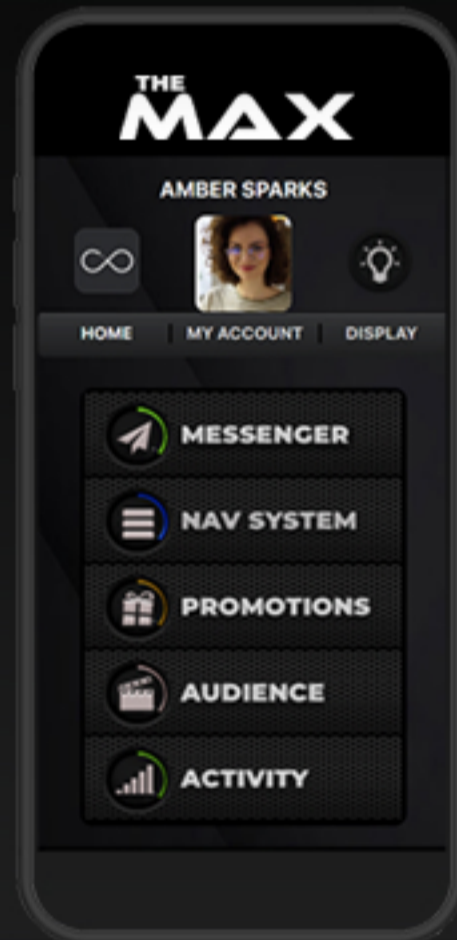

No ability to send alerts during time-sensitive scenarios.

ONE INLINE PLACE

Enjoy the rush of streaming live to the palm of everyone's hand!
Audience enjoys instant access to everything, on-demand.

COMMAND CENTER

Authorized members of property team enter everything new into Command Center.

SMART HUB

Receives commands and synchronizes everything on web address and mobile app.

WEB ADDRESS AND MOBILE APP

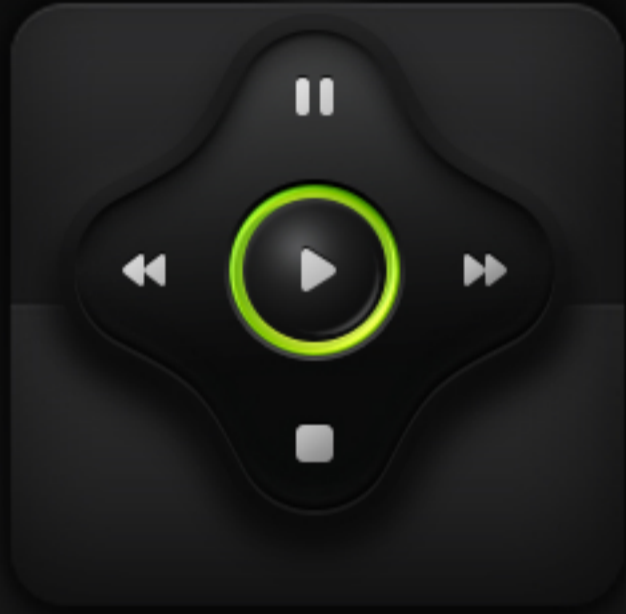

Everything maximized on PC from Web Address. Web address prompts smart device users to install Mobile App or continue in browser mode. Most smart device users install mobile app.

WHY NOW?

Your property communications are slow, redundant, and time-consuming when compared with One Inline Place!

UNIVERSAL PLUG & PLAY

**Setup is fast, fun, and easy.
No interference with any
of your existing systems
or processes.**
